

# MATRIX

KEY CONTROL SYSTEM

THE CONTROL YOU WANT  
THE SECURITY YOU NEED!

# DO YOU REALLY HAVE CONTROL?

Do you know who took the key?

When it was taken?

Why it was taken?

Do missing keys sound familiar?

## MATRIX KEY CONTROL SYSTEM

When you have dozens or even hundreds of valuable keys, control and security are a top concern

MATRIX is a premium key management system that provides the best combination of key control and maximum security

Whether you are a car dealership, property manager, university, law enforcement or any other organization wishes to regain control over your keys – we offer the best and most advanced solution for your needs!

*"We choose MATRIX since other than control it provides the highest level of security to our keys and assets.*

*In addition, it has massive capacity to contain all our keys in only one cabinet - with any other systems we would have needed at least 3 units.*

*The MATRIX is truly the best key management system I've seen"*

**Jonathan Eltes**  
Dealer Principle  
Mercedes-Benz Brampton

# 1 Identify

Biometric / RFID Tag  
Pin code

# 2 Select a key

According to personal  
authorizations

# 3 Receive access

To the requested key  
only

## The BIG difference

MATRIX provides the highest level of protection for your keys and assets.

Unlike other systems, where anyone who opens the door or drawer can steal or duplicate any key, MATRIX protects each key in a separate locked compartment with no ability to access other keys

## Video records

For an even higher level of security, a dedicated camera will capture every transaction. Using cross-cutting reports, now you can also have a visual of every activity made

## Take control

Stop the endless searches to track a key, no more wasting money on changing locks - Regain control with MATRIX!

- ✓ Secure each key in a separate compartment
- ✓ Decide who can take each key
- ✓ Limit the number of keys that a user can have at the same time
- ✓ Deny user access when driver's license expires
- ✓ Require users to report check out reason
- ✓ Determine due date of each key
- ✓ Send alerts when a key isn't returned on time
- ✓ Require users to report parking location and vehicle condition
- ✓ Document every transaction by video camera
- ✓ Control from a remote location
- ✓ Receive daily reports to your email
- ✓ Centralized network for multiple systems

## We give you more

Gain more value from your key system by adding drawers to secure and manage license plates, expensive tools, parts, laptops and so much more...
