

# MATRIX

Leading innovation

## CONTROL YOUR KEYS

## PROTECT YOUR ASSETS!

A new generation of secured  
key control systems

# **DO YOU REALLY HAVE CONTROL?**

**Do you know** who took the key?

**When** it was taken?

**Why** it was taken?

**Do missing keys** sound familiar?

# MATRIX

MATRIX is a premium key management system which allows full control of your keys and assets

With our systems, controlling your keys has never been easier - you will be able to decide who has access to each key and receive real-time data regarding who took what, when and for which purpose

MATRIX offers the highest level of security to your assets as each key is secured in a sealed compartment and every transaction is captured by a dedicated video camera

*"We choose MATRIX since other than control it provides the highest level of security to our keys and assets.*

*In addition, it has massive capacity to contain all our keys in only one cabinet - with any other systems we would have needed at least 3 units.*

*The MATRIX is truly the best key management system I've seen"*

**Jonathan Eltes**  
**Dealer Principle**  
**Mercedes-Benz Brampton**

# Simple

**1** Identify  
Biometric / RFID Tag  
Pin code

**2** Select a key  
According to personal  
authorizations

**3** Receive access  
To the requested key  
only

# Secured

The MATRIX is nothing like any other key cabinet! It gives us peace of mind knowing our keys are protected along with all the management features we need

Kelly G McNeil  
SUNSET CHEVROLET, WA

MATRIX provides the highest level of protection to your keys and assets. Unlike other systems, where anyone who opens the front door can steal or duplicate any key in the cabinet, MATRIX protects each key in a separate locked compartment with no ability to access without manager permissions

**You can't tamper  
and steal what you  
can't see and touch**

## Video Records

For an even higher level of security, a dedicated camera can be added to capture every transaction. Using cross-cutting reports, now you can also have a visual of every activity made

MATRIX ULTRA

Up to **1,782 keys**

MATRIX ULTRA is the largest capacity unit in the market allows you to store all your keys in a single cabinet and save valuable space

# Control

MATRIX power software contains many unique features that provide you better control along with the security level you need

Limit system access to working hours only

Limit the number of keys that a user can hold at the same time

Deny user access when driving license expires (for vehicle keys only)

Require users to report check out reason

Determine due date of each key

Send alerts when a key wasn't returned on time (user + manager)

Allow users to report parking location and vehicle condition

Document every transaction by video camera

Send alerts when a drawer was forced open and start the camera

Control from a remote location

# Efficient

## WE GIVE YOU MORE

In the same system that you manage keys, you can secure all dealership license plates in a dedicated drawer while controlling the access of users to that drawer

Now you have the assurance that the license plates are protected and have video records of every transaction made

## MANAGE YOUR VALUABLE OBJECTS

MATRIX allows you to secure and manage every valuable object. From expensive devices and parts from the garage to laptops, firearms and even cash deposit. Everything is possible!
